The objectives for this Continuing Medical Education course are:

1. To prepare physicians, dentists, nurses, and other allied healthcare professionals for service at mission hospitals around the world.
2. To provide up-to-date information from experienced medical missionaries on management of disease processes and injuries common to the mission field.
3. To stimulate physician interest and participation in medical missionary service.

More Information

- For a preview of what you can expect from attending the Missionary Medicine Seminar, visit missionarymedicine.net to view lecture handouts, slide presentations, and audio MP3 files from previous seminars.
